VIDEO SURVEILLANCE POLICY

To ensure the safety and security of all children, parents and staff, Merritt Physical Therapy & Rehabilitation is equipped with a 24-hour video surveillance system. The pediatric department is equipped with a security camera and will be conducting video surveillance. Video/security cameras are used to help promote the safety and security of people and property. Security cameras keep children and staff safe and are a very effective deterrent of any crime.

Because we respect the privacy of all children, parents, and staff in our clinics, our 24-hour video surveillance system/security cameras are for internal purposes only. Only the owners and staff will be allowed to view the video footage obtained from MPT's security system. Live footage may be viewed remotely by the owners at a different location.
